Subject: What A Joke

Dear Sirs,

This proposed settlement is truly one sided and it is most definitely not the consumers side. Microsoft deserves more than a slap on the wrist for business practices it continues to use. Please, please don't just knuckle under to the lobbying of the Microsoft camp. It is so important that these practices stop, if any true advancement in the computer industry is to emerge. This company puts a strangle hold on the industry and it must be stopped.

Respectfully,
David B. Bennett
